# MICHIGAN SUMMER RESORTS

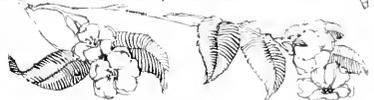

*A Guide to the  
Summering Places in the  
Lake and River Region  
of the State of Michigan*

*Together with a List of Hotels and Boarding Houses,  
their Rates; Fishing and Hunting Lodges and  
the Laws Respecting Fishing and Hunting, etc.*

*Issued by the Passenger Department*

**PERE MARQUETTE RAILWAY**

*W. E. Wolfenden, General Passenger Agent, Detroit, Mich.*

# Michigan—The Summer Land

UNIQUE among the States of America is Michigan. No other commonwealth is comparable to it. Three lakes join hands and compass the state to make it a peninsula and a vast pleasure ground. With one thousand miles of lake—the great unsalted seas—that roll around its shores, Michigan is one of the delightfully cool regions of the North American continent during the heated season. There are accommodations for those who care for the simple outdoor life and accustomed to “roughing it,” or all the diversified distractions for those who prefer life at well-appointed summer resorts. These form an almost unbroken chain that fringes the entire shore line of a thousand miles.

The physical structure of the country is not without its diversity, from forest and meadow, mountain and valley, to lake and moor. Sun's shine, gayety and life are never wanting. They who have come to Michigan once seldom fail to visit it again and again.

Rest and comfort are assured in Northern Michigan.

The peculiar topography of Lower Michigan vouches against the possibility of excesses of heat or cold. There is an almost entire absence of humidity. Even at the height of the summer season the sun's rays involve no discomforts. The prevailing winds are from the west and are cooled in their sweep across the bosom of Lake Michigan. Cool nights are common in Northern Michigan, when only a few hundred miles to the southward, the densely populated cities are sweltering. Sound sleep and perfect rest follow naturally in the wake of a stay in this vast country.

Friendly welcome awaits those seeking a real holiday at the hundreds of summer hotels and farm houses that dot this section. From New Buffalo at the southern end of Lake Michigan, and extending to the north as far as the Straits of Mackinac and Sault Ste. Marie, and again southward down the St. Mary's River, Lake Huron, the St. Clair River and Lake St. Clair, these resorts fringe the shore.

Michigan's resorts are readily accessible. From Chicago, St. Louis, Kansas City, Cleveland, Cincinnati, Indianapolis, Pittsburgh, Louisville, Buffalo, Toledo or Detroit, it is but a twelve to a twenty-four-hour ride in a comfortable Pullman sleeping car. For those who live further south close train connections are made at almost every other point.

Brief descriptive sketches of but a small number of the more important resorts are carried in this booklet. Specific detailed information relative to the hotels and other places where accommodations are offered will be found in the last pages of this publication. Accurate detail maps of the resort region are also inserted at the back of the booklet.

A forecast of the schedules of “The Resort Special” to the principal resorts for the season 1917 is given. These train schedules are but tentative or approximate, and consequently should not be accepted as final. Representatives of the Passenger Department of the Pere Marquette Railway, or other lines mentioned in this booklet, will cheerfully lend such assistance and give such information as is necessary to make a complete and well-planned vacation.

For the Lake Michigan East Coast Country, greatly reduced Week-End Fares are offered at Chicago and suburban stations for points from New Buffalo to Pentwater, inclusive, from May 4th to September 30th. These tickets will be sold for all Friday afternoon trains, all Saturday trains and the Sunday morning train. Returning, they will be good until the following Monday. (See note below.)

*NOTE:—These tickets will not be good northbound on Train No. 5, or southbound on Train No. 4, except when reading to or from points north of Holland. See Time-Table and Schedule of Week-End Fares. Page Thirty Nine.*

FOR APPROXIMATE TRAIN SCHEDULES SEE PAGES  
THIRTY-SIX TO THIRTY-NINE, INCLUSIVE

Grand Hotel and Grounds, Mackinac Island

## Mackinac Island

FRANCIS PARKMAN the historian, has paid tribute to the sovereign beauty of Mackinac Island in these words: "The Island of Mackinac, owing to its situation, its beauty, and the fish which the surrounding waters supplied, had long been a favorite resort of Indians. It is about three miles wide. So clear are the waters of Lake Huron, which wash its shores, that one may count the pebbles at an incredible depth. The island is fenced round by white limestone cliffs, beautifully contrasting with the green foliage that half covers them, and in the center the land rises in woody heights. The rock which forms its foundation assumes fantastic shapes,—natural bridges, caverns, or sharp pinnacles, which at this day are pointed out as the curiosities of the region. Legends and superstitions attached a mysterious celebrity to the place, and here, it was said the fairies of Indian tradition might often be seen dancing upon the white rocks, or basking in the moonlight."

The Mackinac Island, which Parkman described, is the Mackinac Island of today, for fortunately the despoiling hand of commerce has spared it.

The Island of Mackinac is a well-kept park, maintained by the State of Michigan. Its drives and walks are a delight. The State recently added another memorial to one of Michigan's great men—General Lewis Cass—in the form of a statue. Hotel accommodations are all that could be desired, and the range of price is such as to fit every purse.

A Scene in the Lake Country

A Happy Picnic Party

Ferrace Inn, Bay View

The Station at Petoskey — a Pere Marquette Summer Resort Point

The Grand Hotel is the largest one there, and its location is also the most striking. There is a charm that lingers in the memory of all who have witnessed the view from the wide veranda looking across the sparkling waters of the Straits and toward the islands that dot them. Frank A. Nagel, of St. Louis Mo., president of the Grand Hotel Company, and Charles J. Holden, Mackinac Island, resident manager, in charge of the Grand Hotel since 1910, will again conduct it this year. Under their supervision nearly \$100,000 have been expended in remodeling, redecorating and refinishing the hotel. The improvements also include 100 additional bathrooms and the installation of hot and cold water in every guest room. New electric elevators and a steam-heating system have been installed. A buffet, a barber shop, ten-pin alleys, billiard halls and a casino are maintained also.

The hotel grounds comprise twenty acres. The building itself, which is of "Old Colonial" style of architecture, is situated on an eminence which overlooks the Straits of Mackinac, giving by day or night an ever-changing and ever-interesting panoramic view of the commerce of the inland seas.

Within one hundred yards of the Grand Hotel there is a golf course, which, because of natural conditions has been declared one of the sportiest golf links in the North.

The Grand Hotel will open July 1st and will positively remain open until September 20th, thus assuring hay-fever patients accommodation until after the expiration of the season of this malady.

### St. Ignace, The Quaint

ON the extreme southern point of the mainland of the Upper Peninsula, which stretches out to what is known as the Straits of Mackinac, lies another spot hallowed in the history of Michigan—St. Ignace. This town was founded by

the great explorer, Pere Marquette, for whom was named the Railway System which serves more than three-fourths of the population of the State. Over the tomb of Father Marquette rises a simple marble shaft. In the little church are a number of interesting relics associated with the explorer and the mission of St. Ignace.

### Sault Ste. Marie

INNUMERABLE water trips are offered from Mackinac Island, and for that matter from Petoskey, but few are as interesting in the variety of the scenery unfolded as that to or from the city of Sault Ste. Marie, on the St. Mary's River. Colossal locks and ship canals have been constructed on either side of the river to permit the safe navigation of this stream, where the rapids would make it impossible.

### Petoskey

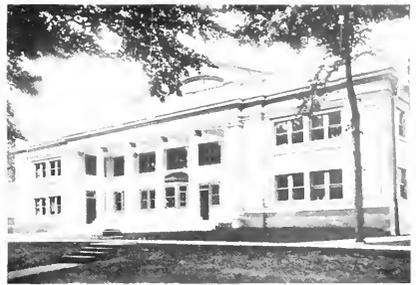

THAT section which encompasses Petoskey and Bay View has the form of a giant amph-theater, of which Little Traverse Bay is the arena. There are those travelers, who, looking upon the blue waters for the first time, have found in them the same iridescent sheen that marks those of the Bay of Naples. Such is the site upon which these two celebrated summer resorts are located.

Petoskey, a progressive city of about 8,000 inhabitants, is usually reinforced by a colony of summer visitors and cottagers of as many more during the summer season. It is the natural center of a prosperous fruit and agricultural district. The city is well paved and maintained with scrupulous care. Few places are more beneficial to hay fever patients.

The country road system is being extended each year and offers many fine automobile drives. Chief among these is one to the Bliss Farm and the "Old Trail Tavern," near Cross Village.

Hotel Cushman, Petoskey

The John M. Hall Auditorium, Bay View

Petoskey has several amusement places, including a large roller skating rink. A nine-hole golf course will be ready for the season's visitors.

The hotels are jointly capable of comfortably accommodating 3,000 guests. In addition, there are many desirable boarding houses, rooming houses and restaurants.

Hotel Cushman is a splendid hostelry, which, while open all the year round, caters particularly to the summer tourists who "go North" each season. It is situated on a rise of ground which overlooks Petoskey's beautiful central public park. Mr. W. L. McManus, Jr., will operate it again this season.

Hotel Perry, N. J. Perry, proprietor, and Clark's Tavern, Mrs. Alexander Clark, owner, are also popular tourist rendezvous.

Three flowing wells, which yield waters rich in their medicinal and curative properties in such maladies as rheumatism, etc., have recently been discovered. The grounds have been beautified into a park, concrete approaches have been laid, and drinking fountains erected, these the gift of the women of Petoskey. Altogether, the beauty of the city has been enhanced considerably thereby.

## Bay View

**C**ERTAIN conditions make Bay View unique among all the resorts of the region. During many years of growing popularity it has been the seat of a great assembly and summer university; this with natural beauties and the wide variety of sport provided, making a combination that is a powerful magnet to thousands. Its devotees call it the most beautiful summer town in the world. Winding, shaded streets and hundreds of cottages rise in successive terraces from the very shore of Little

Traverse Bay. Upon a park-like campus face the public buildings of the university, including a \$50,000 auditorium. On the beach below are tennis courts and a handsome casino, where a great swimming pool and fine bowling alleys offer sport. This year is to mark a real forward movement in assembly work. The brilliant program will include musicians, entertainers and lecturers of uncommon distinction. At the same time, the university is at hand with a selected faculty and hundreds of students for summer work. It is this happy blend of cultivation, entertainment and sport in such attractive surroundings that make Bay View a delight to young and old. The university classes begin July 10th, the assembly July 20th, and there is never a dull minute thereafter. A perfect sanitation, water and electric system, 500 cottages, easy access to all Bay resorts and such excellent, well-appointed and moderate-priced hotels as the Bay View House, Terrace Inn and Howard House assure comfort for all. Write to Mr. Thomas Gordon, Jr., Howell, Mich., for Bay View Bulletin.

## Roaring Brook and Ramona Park

**N**o more superb view of the beauties of the Little Traverse Bay and its admirable virgin shores than can be obtained from Ramona Park or the Roaring Brook resorts. These resorts are situated on the curve of the bay along the north shore. The communities of cottages are rather exclusive, although Hotel Ramona and Roaring Brook Inn cater to transient visitors. The former is situated on the shore of the bay; the latter is built on a high wooded bluff at some distance inland. The walks to and from these two resorts are through beautiful woodland.

The Inn at Charlevoix-the-Beautiful

A Wequetonsing Home

At night on Little Traverse Bay

Entertainment for the Children

## Wequetonsing

**J**UST a short distance farther is Wequetonsing—a community of cottages. Many of these homes are built facing the main shore drive, while others are erected on the shelf of land just under the bluff, running along the north shore of Little Traverse Bay. Wequetonsing Hotel, managed by Mrs. F. K. and A. A. Brubaker and Maple Grove Inn, managed by Mrs. C. B. Gray, have proved popular with the tourist.

West Wequetonsing adjoins Wequetonsing, and has a station of the Grand Rapids & Indiana summer suburban service. The Colonial Hotel, Mrs. C. H. Eaton, manager, is located at this point.

## Harbor Springs

**T**RAINS of the Grand Rapids & Indiana Railway maintain a frequent service between Petoskey and Harbor Springs. This latter village is the terminus of this line. The boats of the Little Traverse Bay line touch at all resort docks at hourly intervals. Substantial improvements have been made to the hotel accommodations during the past season. The New Emmet is the chief one. Tourists find much of interest in the Old Mission church which was built in the long ago for the uplifting of the Indians.

Across the little harbor is Harbor Point, which has become the summer home of those of wealth and leisure, who have made it an exclusive residence resort. Many persons of prominence are entertained each

A Harbor Point Home

Hotel Belvedere, Belvedere

summer at the Harbor Point Club, which has developed an enviable record under the management of Mr. F. H. Irish.

### Forest Beach

**D**RIVING westward from Harbor Springs station, through woods and over hills, takes the tourist to the Forest Beach Resort and Hotel. This alluring spot, which is on a slight eminence, overlooks Lake Michigan. There is a luxuriant growth of virgin forest consisting chiefly of cedar, beech and birch. The hotel gives excellent service.

### Suburban Petoskey

**S**ITUATED in Petoskey's hinterland are numerous pleasant spots which may be reached from this point via The Grand Rapids & Indiana Railway. Walloon Lake, on which are located many desirable hotels, is perhaps the most inviting of all. It lies south of Petoskey and northeast of Charlevoix.

Oden is north and east and has some famous springs. Four miles from Petoskey is Wa-ya-ga-mug and Round Lake. On the shores of the latter the Indian play "Hiawatha" is enacted each summer. Thousands of visitors are attracted by the play. Another throng takes the steamer of the Inland Route from Conway. No more devious trip is known to travelers the world over. The boat passes through Crooked Lake and River into Burt Lake and through Indian River to Mullet Lake and to Topinabee

How Passing Sweet is Sport!

On the Links at Charlevoix

Boat House, and Entrance to Pine Lake from Lake Michigan

Here luncheon is served at the Inn, and afterward one may return to Conway, or a change of boats may be made and the trip continued down the Cheboygan River to Cheboygan. Inland Route offices are in Petoskey. From Cheboygan one may go to Bois Blanc Island, where Pointe aux Pins resort is found, and then to Mackinac Island.

### Charlevoix - the - Beautiful

**A**S atmosphere of pure serenity welcomes the traveler alighting from the train at Charlevoix—the Beautiful. There is none of the characteristics of the smoke-filled battlefields of modern industrial competition. It is a city given over entirely to genuine enjoyment.

Charlevoix the Beautiful is built on a series of three natural terraces. Lake Michigan rolls on its westward; Round and Pine Lakes on its eastward wooded shores. All about there is an abundance of virgin wooded growth. On the south side of Round Lake and with Pine Lake to the east, the Charlevoix Homes Association holds a large tract of land. Civic enterprise has anticipated every want. Water is supplied the city by a private system. Drainage and perfect sanitation are assured by a modern and complete sewer system.

Hotel Belvedere, owned by The Resort Association, accommodates 300 guests. The service is of the first order. Mr. R. P. Foley is the manager. The opening date is June 10th.

Across Round Lake, on the other shore, is the Chicago Resort. Transient guests are entertained at the club house when recommended by a member of the Association.

The Pere Marquette's attractive station faces Pine Lake, and from this point there is a broad avenue which leads back from the station to the business district of Charlevoix—a mile away, on the shore of

Lake Michigan. This street runs along the north shore of Round Lake and skirts the upper terrace, while on the left is seen the Chicago Resort. Across the sparkling waters of Round Lake one sees on the farther shore the terraces of the Charlevoix Summer Homes Association. North of the avenue is a large tract owned by the Charlevoix Resort Association, which lies between Pine Lake and Lake Michigan.

The Charlevoix Golf Club, which has been described by an eastern expert as the "Ekwanok of the West," extends northward across a ridge of low hills. It is an eighteen-hole course. The grounds are always well kept and are ever-inviting to the devotees of this outdoor sport. Much money has been expended in improving this course and expert golfers from all over the country come to play upon it.

The Inn, which is one of the best appointed public resort hotels to be found anywhere, will again be under the management of Mr. A. I. Creamer, who also conducts the Highland Pines Inn, Southern Pines, N. C. He will have with him the same efficient organization which has contributed much to the popularity of this resort. Upwards of 350 guests are accommodated here. Recent improvements and enlargements add to the attractiveness of The Inn. There are now sixty private suites, each with bath, while every floor is provided with public baths and lavatories. The date for the opening this year will be June 30th.

The Charlevoix Beach Hotel, owned and managed by Mr. J. S. Baker, has been enlarged since last season, and it is now a seven-story structure. Over \$25,000 have been expended in beautifying the building and the grounds. This hotel is located on the Lake Michigan side of the city.

Other hotels are Hotel Michigan and Hotel Charlevoix, and the Hallett House, on the avenue leading to Belvedere Station.

The Resort Special Approaching Charlevoix-the-Beautiful

Good accommodations and moderate prices obtain at the numerous boarding-houses of the city. Detailed information on this subject will be found on the last pages of this booklet.

A picturesque equestrian trail through the virgin forests adjacent to Charlevoix has challenged the admiration of every votary of this outdoor sport who has had the good fortune to ride upon it. A prominent Riding School will be represented. Experienced instructors will have charge of the work.

One of the distinctive features of The Inn is the big swimming pool, which is being patronized by thousands each year. The pool is kept filled with filtered water from Lake Michigan, flowing constantly, and maintained at a temperature that makes a plunge a delight at all times. It is also a safe place for the little ones who are learning how to swim and the mothers have not been slow in appreciating this. Competent instructors are always in attendance.

Attractive furnished houses and cottages, for the month or the season, may be secured in Charlevoix or neighboring resorts. A list of these may be found on the last pages of this book, and any additional information will be gladly given by Mr. F. V. Alexander, Ticket Agent of the Pere Marquette at Charlevoix.

While Charlevoix is in the heart of the Northern Michigan resort country, it is surrounded by a territory honeycombed with other desirable resorts. Sixteen miles north is Petoskey; twelve to twenty-five miles to the south is the Intermediate Lake Region easily accessible for a day's fishing through the special summer train service of the Pere Marquette; eastward is the Pine Lake Country, where lie Boyne City, East Jordan and Walloon Lake.

During the summer the gas-electric motor service of the Pere Marquette offers resorters frequent trains

during the day and evening between Belvedere, Charlevoix and Petoskey-Bay View. At the last named point connection is made with dummy trains over the Grand Rapids & Indiana Railway for Harbor Springs, Wequetonsing, Roaring Brook, Wa-yag-mug, Oden and Walloon Lake. Two steamers make daily trips to the head of Pine Lake, and another boat goes frequently to the historic Beaver Islands lying in Lake Michigan, northwest of Charlevoix.

## Resorts of Pine Lake

**W**HITE-WINGED craft and yachtsmen as well as motor boats and motor boatmen, in countless numbers preempt Pine Lake during the summer months, as magnificent an expanse of blue waters as is to be found in America. This lake stretches eastward from Charlevoix-the-Beautiful. It separates into two arms—the south and east bays. On the former nestles East Jordan; on the latter, Boyne City. East Jordan is reached by the trams of the East Jordan & Southern Railway, which connect with the Pere Marquette Railway at Bellaire, or by daily steamer from Charlevoix.

Restfulness and excellent fishing grounds are among the advantages which both Charlevoix and East Jordan offer. The immediate streams and lakes are the haunts of trout, bass, pike, muskellunge and other fish. Mr. R. A. Brintnall, Secretary of the East Jordan Board of Trade, will give such information as is required.

Boyne City is reached by boat from Charlevoix. The quiet and peaceful aspect of this place blends well with the beauties of the adjacent country, reminding one of New England.

Summer Homes at Belvedere

## Intermediate Lakes

ALmost parallel to the east shore of Grand Traverse Bay from Williamsburg to Charlevoix, extending at some distance inland, in an almost unbroken chain, are what are known as the Intermediate Lakes. Along the shores of these picturesque bodies of water are hundreds of points of interest to the summer visitor, the angler or the hunter.

Elk Rapids, at the outlet of the Intermediate Lakes—so popular with those who like an extended canoe trip—is situated on the east arm of Grand Traverse Bay. It is in the center of the Grand Traverse fruit region. The land about Elk Rapids is high; the water is pure, the climate is healthful and the fishing is excellent.

Meguzee Point Resort, just south of Elk Rapids, on Elk Lake, is a recent bidder for popular favor among the summer visitors. It is delightfully situated, and is the first "port of call" for the Intermediate Lake steamers.

Boarding the little steamer at Elk Rapids, one sails through Elk Lake and Round Lake, into Torch River stopping at Torch River Bridge where Bingham's Torch Lake Inn, a new and well conducted summer hotel, is situated and then out upon Torch Lake (Old Torch), and across to Alden. On the way from Elk Rapids the boat stops at Rex Terrace and Skegemog Point. These resorts issue booklets descriptive of their advantages. After a pause at Alden (and sometimes a change of boats), the trip up Torch Lake may

Beauty 'neath the Birches

Ready for a Big One

be resumed. The first stop is at Lone Tree Point, three miles from Alden. This attractive resort is a favorite with Chicago people. Beyond Lone Tree is Clam River entrance, and a half mile north of it is the Pere Marquette Beach Hotel, deservedly popular with residents of Chicago, Detroit and Ohio points.

Coming back to Clam River, the steamer once or twice a week continues on into Clam Lake, into Grass River and Grass Lake, and to the end of the trip at Bellaire. There are several fishing camps on Grass Lake where are found good entertainment and excellent sport among the finny tribes.

Lake View Resort, also on the east side of the lake, is a homelike place, and has been improved with new detached bungalows. On the west shore is Miley's Lodge, a new cottage resort.

Hayo-Went-Ha Camp for boys, conducted by the State Committee of the Young Men's Christian Associations and recognized as one of the foremost in the world, begins its fourteenth season with the summer of 1917. The camp is located on Torch Lake, the largest and one of the most beautiful inland bodies of water in Michigan. Mr. F. P. Knapp will again act as camp director and associated with him will be men of national reputation in work with boys. The equipment of the camp is as fine as can be found anywhere, including a clubhouse, spacious dining lodge, tennis courts, baseball diamond, boats, etc. Fifty-five acres of wooded land away from resort influences make it an ideal camping spot.

Hotel Ramona, Ramona Park

Camping in the Great Northwoods

Cantering on the Siskiwit Trail, Charlevoix

Roasting in on Torch Lake

Boys have been in attendance from over 150 cities and towns and a large percentage of them return year after year.

Parents desiring to send their boys to Hayo-Went-Ha should write Mr. C. W. Kirkpatrick, Secretary, 411 Association Building, Detroit, Mich.

Beyond Bellaire, the fishing along the Intermediate chain is the delight of the angler. Stopping at Central Lake Station and taking a launch, one is taken to Fisk's Lodge, managed by Mrs. C. B. Fisk. This is a rallying point for fishermen who like the royal sport of bass and muskellunge angling. At the head of the chain of lakes is Ellsworth village. Excellent fishing and competent guides are also found here.

Fisherman's Paradise, near Bellaire, Mich., is a rendezvous of sportsmen. Mr. H. D. Smith, who conducts this family resort, has recently made extensive improvements to his property including the construction of a new and picturesque log and stone bungalow dining room, providing seating accommodations for 200. Ponies have been added to the equipment for the entertainment of the children. The bathing beach is safe.

Good fishing is found at practically all the resorts along the Intermediate Lakes, and the experienced fisherman will travel far before reaching a district which will yield him equal results. There are many trout streams in this region.

Suitable camping sites aplenty are found along the Intermediate Lakes almost anywhere. Each year sees an ever-increasing number of these lovers of life in the outdoor pitching their camps in the wooded slopes running back from the open water front. Ideal bathing beaches and hundreds of cold springs of crystal water are to be found almost everywhere. In many cases parties of twenty-five to seventy-five are formed in cities miles away to take up some favored

camping spot in the Intermediate Lake section. These camp sites are easily accessible from the railroad.

Steamer and launch facilities enable campers to get to the towns as desired. The steamers Ruth and Mabel perform service between Elk Rapids and Clam River, touching at all intermediate resorts.

## Grand Traverse Bay

**T**HAT summerland, known as Northwestern Michigan, has Traverse City for its principal gateway and capital.

Traverse City is situated at the head of beautiful Grand Traverse Bay, a body of water thirty-five miles long and from five to six miles in width. Its beaches are wide, sandy and safe for bathing or boating. In addition, there is all that can be desired by the most exacting artistic temperament. The sunsets have a diversity of coloring that would be declared unreal on an artist's canvas.

No less than thirty-two inland lakes are found within easy distances of the city. On each of these, resorts have been developed. They are accessible by train, boat or automobile. Good roads have been and are still being built. Special drives—seven in number—have been mapped out, making it possible to leave in the morning by automobile, motor all day and return to Traverse City by a different route in the evening.

Near-by streams afford good German brown and rainbow trout fishing. Write the Secretary of the Chamber of Commerce, Traverse City, Mich., for booklet.

The Traverse City Golf and Country Club maintains a nine-hole 3000-yard course and a large, commodious club house which has just been completed. This latter is situated on the brow of a hill and commands a view of Boardman Lake, Traverse City and both arms of Grand Traverse Bay.

Havo-Went-Ha Boys' Camp, Torch Lake

Fisherman - Paradise

The course has been pronounced by experts one of the most wonderful in the country, as all the hazards are natural and of a kind that challenges the skill of the expert and stimulates the desire of accomplishment in those not so proficient. The drive from the fourth tee, on the brow of the Lake overlooking Boardman Lake, to the fourth hole, over Boot Lake is a drop of 100 feet. Syd J Cooper, open golf champion of Indiana, has been secured as professional.

For further information address the secretary, Mr. K. D. Lewis, Traverse City, Mich.

The steamer "Mary Ethel" will make close connections with "The Resort Special" to and from Bowers Harbor, Ne-ah-ta-wanta and Old Mission.

The Pere Marquette and the Traverse City, Leelanau & Manistique Railway operate a through sleeping car service between Chicago and Traverse City, Omena and Northport during the tourist season. Direct automobile service is provided between Suttons Bay and Leland at reasonable rates.

Ne-ah-ta-wanta, Edgewood and Old Mission resorts are on the peninsula that projects into Grand Traverse Bay. These can be reached also by a drive from Traverse City.

Ne-ah-ta-wanta is a family resort consisting of a number of very attractive cottages. Among the varied attractions of this popular resort are golf, bowling, tennis, boating, fishing and bathing on a safe sandy beach.

Edgewood is a quiet family resort with excellent board and accommodations in rooms and in furnished cottages. Edgewood Cottage Resort with a central dining hall, is farther south. Miss Lucy D Lewis is manager.

Old Mission, with its community of cottages and numerous boarding houses, is another delightful point to spend a summer vacation. Omena, which is near by, has also some individual claims as a resort point.

as also the Leelanau Resort, with its hotel and cottages. Just south of Omena village is Hotel Clovers, a cottage resort of the first order, which is managed by Mr. William W. Foltz.

The Northport Point Cottage Resort lies at the outer entrance to the big bay. Cedar Lodge affords excellent accommodations to the tourists and visitors at Northport Point.

### Inland from Traverse City

**A**MONG the numerous and beautiful lakes found inland from Traverse City, few can compare with Lake Leelanau or Long Lake to the north and west; Green and Duck lakes at Interlochen on the main line of the Pere Marquette; Platte Lakes and Crystal Lake, near the shore of Lake Michigan at Frankfort; and Lake Ann and Traverse Lake Resort, on the Manistee & Northeastern out of Traverse City.

The Glen Lake region has a number of attractive and comfortable homes that afford accommodations for the tourist and the sportsman. Glen Lake is well stocked with bass, lake trout, pickerel and perch. The streams which empty into the lake teem with brook trout. Out in Lake Michigan there is opportunity for deep-water fishing.

### Lake Leelanau and Leland

**N**ORTHWEST of Traverse City, twenty miles or thereabouts, on a narrow strip of land lying between Lake Michigan and Lake Leelanau (Carp Lake), lies Leland. This place, which has many natural allurements for the angler and tourist, is reached from Traverse City by the Manistee & Northeastern Railroad to Fouch, and boarding the steamer "Leelanau," of which Capt. J. Ver Snyder is master, for a delightful water trip of two hours' duration. There is an attractive landscape all the way.

A Scene Near Bingham - Torch Lake Inn

An Orchard Scene in the North

The Whispering Pine at Alden

Fishing Resort near Bellair

## Fountain Point

ON the route covered by the steamer "Leelanau," which plies to and from Fouch, are Fountain Point Resort and Provemont. The former is notable for its big mineral springs, which flow steadily. An excellent hotel, cottages, a safe bathing beach and good fishing and outdoor sports, are among the attractions of this resort section. Mr. Albert Mealey, Provemont P. O., is proprietor and manager.

## Interlochen and Pine Park

SKIRTING the edge of Green Lake and almost completely surrounding Hotel Pennington, one of the most modern types of summer hostleries to be found in the north country, is a natural pine forest of dense growth. Hotel Pennington is situated near the Pere Marquette station at Interlochen, thirteen miles south of Traverse City. There are several lakes nearby. In front is Green Lake, while half a mile back is Duck Lake.

Hotel Pennington has a capacity of one hundred guests. The Green Lake Resort Association owns a cottage resort here. A descriptive booklet may be had on application to the Interlochen Resort Association, Interlochen, Mich.

Pine Park, another resort similarly situated in a virgin forest, is being developed as a cottage resort. It lies one mile east of Interlochen.

Boys' Camp on Clam Lake

Rox Terrace

## Frankfort and Crystal Lake

**I**N that region adjacent to Frankfort and Crystal Lake, reached by the Pere Marquette Railway to Thompsonville and the Ann Arbor Railroad from that junction point, are a number of attractive outing places. The Congregational Assembly is located on Crystal Lake, near Frankfort, where annual Chautauquas are held. The grounds comprise 125 acres of wooded land, with hotels, cottages and boarding-houses. This resort, as well as Frankfort or Beulah, on Crystal Lake, is an ideal place to spend a summer vacation or a week-end. Write the Congregational Assembly, Frankfort, or G. A. Weller, A. G. F. & P. A. the Ann Arbor Railroad Company, Toledo, Ohio.

A Beauty Spot on Clam Lake

## Portage Point

**U**NIQUE, restful, secluded,—that's Portage Point, the summer resort, point for point, unequalled. Portage Point is unique, primarily in point of location. Situated just ten miles north of progressive Manistee, the portal to the summer resorters' paradise, Portage Point, the golden pine-crested, rugged strand of sand, commands, on the west, the unparalleled scenic splendor of old Lake Michigan in its vari-colored beauty.

The placid, crystal-pure waters of Portage Lake and a channel, 400 feet wide, connecting it with Lake Michigan, bound Portage Point on the east and south.

Bathing is Safe Sport in Northern Michigan

Beach Hotel, Torch Lake

Cottages at M'Lev, Bellair

Completing the picturesqueness of its environs and presenting every known facility for perfect comfort, Portage Point Inn and Annex, Beech Lodge, are adequate assurance that here is all one may desire to make this season the most enjoyable. The Inn, and Annex, modern to the last degree, leave naught to be desired. They are the center of all attractions and the golf, tennis, fishing, sailing, ball-room, club house and children's playgrounds are easily accessible. All recreations offered at Portage Point are of a quality commensurate with what you have a right to expect when seeking the best.

On the eastern shore of the lake is Onekama, and all along its 10 or 12 miles of beautiful shores are handsome summer homes and resort colonies.

For information concerning Portage Point, communications should be directed to Mr. R. A. Jewell, Onekama, Mich.

Portage Point and Onekama are reached by the Pere Marquette and the Manistee & Northeastern Railways via Manistee or Kaleva. Write Mr. D. Riely, General Passenger Agent, Manistee & Northeastern Railroad, Manistee, Mich., for detailed information of Portage Lake resorts, cottages for rent, etc.

## Ludington and Manistee

A <sup>N</sup> important rendezvous for the summer visitor, a leading port of the east coast of Lake Michigan and also a terminal of the Pere Marquette Railway is the three-fold character of Ludington.

It is also from this city that Michigan's great system of transportation draws its name for this thriving city was long known as Pere Marquette. Here, too, the Pere Marquette river discharges into Lake Michigan. Ludington is also of importance because of the magnitude of trans-lake shipping which is carried on between this city and Milwaukee and

also between it and Manitowoc. Two passenger lines are in operation to and from Milwaukee. Other lines make Ludington a port of call.

Good hotels and boarding houses make Ludington a most desirable place to visit during the summer.

Manistee likewise is a thriving port city, sixteen miles north of Ludington, and at the mouth of the Manistee river. Numerous resorts are near at hand, and there is an opportunity for large industrial development, through the power afforded by the river. Both Ludington and Manistee are centers for rich and rapidly developing agricultural and fruit growing sections. Thousands of acres are being planted to fruit trees.

## Epworth Heights

**C**ONSTANTLY growing is the Epworth Heights community resort just two miles north of Ludington. New cottages have been erected each year until now the number exceeds 200. For those who do not care to be burdened with "keeping house" there is a good hotel. Of amusements there is a wide range, including tennis, croquet, rowing, canoeing and sailing on both inland and Lake Michigan waters. The golf links are well laid out and the golf club house, which has just been completed, is as attractive a two-story structure as can be found in the North.

The "walking" sand dunes near-by appeal to the curious. An assembly program, which brings speakers and entertainers of national prominence during the last week in July and the first three weeks in August, proves a strong feature of the season's activities.

The Mary Wood Chase School of Musical Arts, of Chicago, holds its Summer School annually during July and August at Epworth Heights. Two new studios will be ready for the opening of the season.

This school attracts professional students from all over the United States and has enrolled also some

Hannah Park at Traverse City

Long Tree Point

pupils from distant countries. The courses offered comprise Elementary as well as Teachers' Training Classes. The Conservatory, which contains studios for teaching and practicing, is situated in a wooded glen, surrounded by luxuriant foliage and unbroken quiet.

The Ben Greet or the Coburn Woodland Players, in Shakespearean repertoire, are annual visitors at Epworth Heights and also at Lake Harbor. A steam dummy service connects Epworth Heights with Ludington.

Mr. Polemus H. Swift, Secretary, 257 Keystone Avenue, River Forest, Ill., will give particulars as to membership or other privileges at Epworth Heights on request.

### Hamlin Lake Resorts

THESE is a distinctive charm that pervades the entire Hamlin Lake Resort region, north of Epworth Heights. This point is also reached by the "dummy" line from Ludington. There are few Michigan inland lakes that surpass this body of water, where the angler's quest is rewarded with a plentiful catch of small-mouth black bass, pickerel, pike and muskellunge. Several trout streams empty into Hamlin Lake. Piney Ridge, Camp Arcadia Resort, Grand View Hotel, Sauble Inn and Forest Hill are among the numerous other resorts. These are all reached by launch from the "dummy" line station.

### Inland from Ludington

TRIBUT streams and lake resorts are to be found inland from Ludington. Oak Openings Resort is situated at Round Lake, near Batcheller Station, on the Manistee Branch of the Pere Marquette. There are also fishing camps on the Pere Marquette river, which can be reached from

Baldwin, and at Big Star Lake, eight miles from Baldwin, is Oak Lodge, where excellent camping and fishing grounds are also located.

### Resorts of the Lake Huron Coast

ONLY passing mention of the resorts located south of the Straits of Mackinac, along the west coast of Lake Huron, so well are they known to the American tourist. Cheboygan, Rogers City, Alpena, Harrisville, Au Sable (Oscoda), Tawas Beach, Van Etten Lake and Point Lookout are the principal ones. Then there are Bay Port and Port Austin, on Saginaw Bay; and the Pointe aux Barques resort, at the tip of "The Thumb." Harbor Beach and surrounding section; Huronia, Gratiot and Edison beaches and St. Clair River and St. Clair Flats section—the "Venice of America."

Recreation-seekers and prospective farmers, too, will find much of interest in the country lying between Bay City and Cheboygan, which is tapped by the Detroit & Mackinac Railway. From Bay City to Alpena the railroad runs along the Lake Huron shore.

A large summer hotel and cottage resort is situated at Tawas Beach on Tawas Bay. Inquiries for cottages, etc., should be directed to Mr. W. G. MacEdward, G. P. A., Detroit & Mackinac Railway, Bay City, Mich.

Several hundred lakes filled with bass and many trout streams are reached via this line.

The better-known are the following: Mullet Lake, reached from Cheboygan and Aloha; Black Lake, reached from Cheboygan and Onaway; Presque Isle County chain of lakes, reached from La Roque and Millersburg; Long Lake and Grand Lake, reached from Alpena; Montmorency County Lakes reached from Hillman; Hubbard Lake, reached from Ossineke; Alpena, Harrisville and Lincoln, Van Etten Lake, reached from Au Sable (Oscoda) and the Tawas Chain

The Flume, Traverse City

Epworth Heights Woodlands

Forest Log Lodge, near Bellaire

of lakes reached from East Tawas, and the Prescott chain of lakes reached from Prescott

An Adirondack Camp has been planted right down in the heart of Michigan in what is known as Van Etten Reserve, on Van Etten Lake. A splendid hotel of picturesque woodland architecture has been built as well as a number of attractive bungalows. Write Van Etten Lake Reserve, Oscoda, Mich., for reservations or Mr. Harry B. Parker, 125 Woodward Avenue, Detroit, Mich.

Hackmatack Inn on Mullet Lake, is reached via Inverness Station; steamers of the Inland Route also stop there. The Inn, a rustic club house, is managed by Watson Beebe, Cheboygan, Mich., and is open from July 1st to October 1st.

The Christian Outing Grounds Association maintains a large resort at Long Lake (Iosco County). Long Lake Station is but a few feet from the water's edge. Write the secretary, Mr. M. N. Cray, 813 Spitzer Building, Toledo, Ohio, for booklet.

The Au Sable River, one of the most noted speckled and rainbow trout streams in America, empties into Lake Huron at Au Sable (Oscoda).

### Pointe aux Barques

**P**ICTURESQUE in its ruggedness is the scenery in and around Pointe aux Barques. This is one of the most important of the family resorts on the eastern side of the State of Michigan. Well-to-do families from all parts of America have their own beautiful summer homes there. Many new

On Central Lake

Northport Point Resort

Manistee River, North of Manistee Lake

ones are being erected each year. The Pointe aux Barques Association maintains a splendid club house and a dance hall for the use of the cottagers and their friends. In the club-house are fifteen sleeping rooms attractively furnished and with private baths, and a dining hall where a high standard of service prevails. The privileges of this club house are extended to friends of the cottagers and others on application. There is also a good nine-hole golf course. The club house opens about June 28th, and the season extends until about September 6th. For detailed information, rental of cottages, rooms at the club house, etc., write Mr. S. T. Crapo, 1525 Ford Building, Detroit, Mich.

## Harrison

A HEARTY welcome awaits camper and tourist alike at Harrison, one of the most recent places to find favor with the summer visitors. Budd Lake, a picturesque little inland lake that abounds with fish, is situated at the foot of Main street. A beautiful island in the center of the lake, and a city park, comprising fifty acres, where free camping sites are offered, are two distinctive features of this point. Other lakes, trout streams and near-by hills offer inducements for tramping tours. High elevation and pure air make this location desirable to those suffering from asthma and kindred maladies.

## Fishing and Hunting in Michigan

**D**EVIATEES of rod and gun will find that science and nature have been working in harmony in Michigan, for fish hatcheries and game preserves are maintained. For a list of hunting and fishing lodges, see page thirty-three, for the Michigan Fish and Game Laws, see pages thirty-four and thirty-five.

### LAKE MICHIGAN EAST COAST

**T**HE economic importance of that section of country from New Buffalo to Pentwater is two-fold. It includes a large part of what is known as the "fruit belt," and it also comprises what is commonly known as the "Lake Michigan East Coast," a great resort and summer playground. Pure air, sunshine, cool breezes, plenty of good water and shade, lakes and streams, sand beaches suitable for surf-bathing and an abundance of fruit—all make for the popularity of this district.

For the Lake Michigan East Coast country, greatly reduced week-end fares are offered at Chicago and suburban stations for points from New Buffalo to Pentwater, inclusive, from May 4th to September 30th. These tickets will be sold for all Friday afternoon trains, all Saturday trains and the Sunday morning train. Returning they will be good until the following Monday.

*Note: These tickets will not be good on railroad on train No. 507 southbound on Friday A. M., except when returning to or from points north of Holland. See time table and schedule of Week End Fares, page thirty-nine.*

Six trains each way provide summer service to and from the Lake Michigan East Coast territory situated south of Holland; three provide service through to and from Lake Harbor, Muskegon, Lakewood, Whitehall (White Lake Resorts), Hart and Pentwater.

Leaving Chicago via the Pere Marquette from the Grand Central Station, Harrison St. and Fifth Ave., trains for the Lake Michigan East Coast country

make stops in Chicago at 63d St. and South Chicago. Some trains stop at Whiting, Indiana Harbor (B & O Stations), and Porter, Ind., and all of them at Michigan City.

The first East Coast resort stop is New Buffalo. Here is found Vetterly Park, a cottage resort with good accommodations at moderate prices, also the Chicago hotel and several farm resorts.

At Union Pier accommodations are offered at Oak Grove Inn and at numerous farmhouses and summer cottages. Here begins the famous "Michigan Fruit Belt," and the farmers are good "providers." Seventy-five miles from Chicago is Lakeside, where there are a number of resorts and hotels, most of them on the Lake Michigan shore.

Harbert is seventy-seven miles from Chicago, and is right in the fruit country. A short distance from the station, and on the Lake Michigan shore, is Birchwood Beach Resort, with furnished cottages for rent, a central dining hall, and board and rooms at reasonable rates. Write Mr. Wells Sizer, Harbert, for booklet. There are also farm and cottage resorts.

Three miles north is the fruit shipping station of Sawyer. This is a favorite stopping point for residents of Chicago, a number of whom have built attractive summer houses. Chicago capitalists are improving a tract of forest land, on the Lake Michigan front.

Five miles from St. Joseph, and ninety-two miles from Chicago is Glenford. The famed "Lake Shore Drive," running along the Lake Michigan bluffs southward from St. Joseph, passing through the rich vineyard and fruit district of Berrien County, is found here. This drive is lined with handsome summer homes of city folks, and many of them own small pieces of ground where they grow their own fruits and vegetables.

This Lake Shore Drive is like a boulevard, wide and well-graveled. It runs along the lake bluff, and on

Hotel Pennington Interlochen

Edgewood Near Traverse City

each side are scores of "gentlemen farmers" with their small fruit farms and flower gardens. There is no more entrancing drive in the West, at the height of the season, than this one through the "Land of Fruit and Flowers."

### St. Joseph

ON A plateau overlooking Lake Michigan and directly at the water's edge is the City of St. Joseph, historically one of the most important points in the state, and scenically one of the most beautiful. The city being in the heart of the wonderful southern Michigan Fruit Belt permits of the distribution of Berrien County horticultural products throughout the entire country.

As a summer resort St. Joseph has long enjoyed wide popularity. Lake bathing from its wonderful beaches, lake pier and river fishing; inviting motor-boating and canoe waters; varied and enchanting scenery, invigorating air, ample hotel accommodations, pure water and a host of other natural or artificial attractions make for the fullest enjoyment of a summer vacation. Berrien County has more miles of good roads for the automobile tourist than any other county in the country.

### Benton Harbor

A "SUMMER TOWN" of a reputation established many years ago and a center of industrial prominence that is still flourishing, is Benton Harbor. The mineral bath-house at Benton Harbor was the first to be established on the shore of Lake Michigan.

Just outside the city limits is the Israelite House of David and the Park Springs of Eden. The property of this religious association is closely connected with Benton Harbor and St. Joseph and outside towns by trolley lines, and one car line ends at the front of the grounds. The headquarters buildings are scattered

over about seventy acres, while several hundred acres more are given over to farms of the 400 members of the colony.

### Higman Park

ANOTHER rendezvous favored by the tourists is Higman Park Hotel and cottage resort, located on the shore of Lake Michigan and just one mile from Benton Harbor. Transient guests are accommodated at the hotel, while the surrounding resort has built up rapidly with cottages. Information as to lots or cottages may be had of Mr. A. D. Flood, Benton Harbor, Mich.

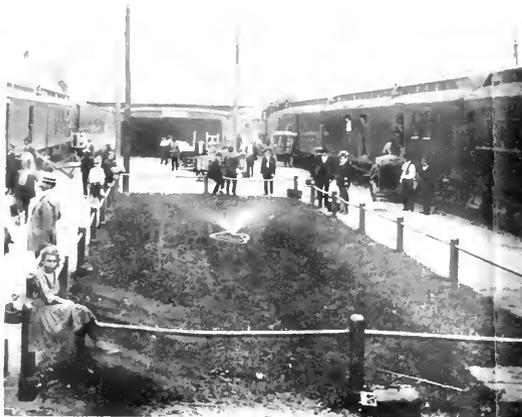

### St. Joseph River

UP the sinuous and picturesque St. Joe River from Benton Harbor the tourist finds numerous farm resorts situated on a number of beautiful inland lakes. Within ten miles from Benton Harbor are Silver Brown, Crooked, Magician and Pipestone Lakes.

Spring Bluff Resort is on the river, about two miles from St. Joseph. It may be reached by river steamer or by the beautiful river road drive. Spring Bluff is strikingly located on the high river bank, and besides the commodious hotel, there is a community of well-built cottages, some of them for rent furnished. There are excellent roads for driving or automobiling and there is also the recreation provided by the river. Interurban cars pass not far away.

### Berrien Springs

SIXTEEN miles from St. Joseph is Berrien Springs, reached by the Buchanan branch of the Pere Marquette from Benton Harbor, or by electric car. The various resorts along the river and inland, on the way to Berrien Springs, as well as in or near the village, are mentioned in the list in this

Baldwin Station Grounds

Leland Beauties

The Silent Caise, Northport Point

Higman Park on the Lake Michigan East Coast

booklet. The person seeking quiet and rest on his vacation will find entertainment at many farmhouses along the river. This is a region of prosperous farmers, and their guests usually have the use of a boat on the river and a carriage for drives.

If the country calm begins to pall on the resorter the trolley car quickly whisks him to the gayer life in Benton Harbor, St. Joseph or some near-by resort.

### Riverside and Coloma

Six miles north of Benton Harbor, and one hundred and four miles distant from Chicago, is Riverside, one of the important summer resort points on the main line of the Pere Marquette Railway. Pottawatomie Park, a resort section that has much to commend it, lies two miles west of Riverside, on the shore of Lake Michigan. This cottage resort accommodates seventy-five persons comfortably.

Coloma is the key of the Paw Paw Lake resort district, the lake being about a mile north of the town, which is 108 miles from Chicago. Cottages, hotels, pavilions and resort grounds completely encircle Paw Paw Lake, which is visited each summer by 30,000 to 50,000 people. The trolley line from St. Joseph or Benton Harbor circles half-way around the lake, passing close to the resorts on the west and north shores.

Visitors to the east end of the lake get off at Watervliet station, and are taken to the various resorts in buses, which meet all regular trains.

Some of the Craft on Spring Lake, Grand Haven

The Grand River above South Haven

## Hartford and Vicinity

AT the junction of the Kalamazoo, Lake Shore & Chicago Line, running to South Haven and Lake Cora, and the Pere Marquette Railway,

116 miles from Chicago, is the prosperous community of Hartford. Reached by a drive from Hartford are a number of small lakes, among them Rush and Van Auken lakes, three to four miles north-west; Duck, Donovan and Dyar lakes, four to five miles north.

The quiet little village of Lawrence lies seven miles east from Hartford, on the Kalamazoo, Lake Shore & Chicago Line. It is in a charming fruit and farming district, and near the Paw Paw River.

## Lake Cora Resorts

ON the Kalamazoo, Lake Shore & Chicago Line, nine miles east of Hartford, is Lake Cora Station—a point justly popular with summer tourists and week-end holiday parties. On the high ground of the north shore of the lake is a fine tract owned by the Lake Cora Summer Home Association. A good hotel (Lake Cora Inn) has been erected, and a large number of cottages, some of which are for rent. The resort list at the back of this booklet gives further information.

Paw Paw station is thirteen miles from Hartford on the Kalamazoo, Lake Shore & Chicago Line. Near the pleasant little town are several good fishing lakes

Park at Ludington

A Happy Group at Lakeside

Pere Marquette Station and Lake Front Park, St. Joseph

A Pleasur Home, at Douglas

## The City of South Haven

**N**ORTHWEST of Hartford, also on the Kalamazoo, Lake Shore & Chicago Railroad, seventeen miles from the junction with the Pere Marquette Railway, is South Haven. Easily 100,000 visitors come and go each season. Its regular quota of the summer population is approximately 5,000. South Haven has a score of hotels, with accommodations varying from twenty-five to 300 persons respectively. The South Haven Country Club, with its forty-acre tract devoted to a golf course, is one of numerous attractions upon which South Haven rests its claims for popularity.

For several miles north and south of the town the lake shore is lined with cottages, while there are other cottages and farmhouse resorts up the Black River, which at South Haven finds an outlet in Lake Michigan and also forms a harbor for lake vessels.

One of the striking features at South Haven is the bathing beach, and sometimes as many as a thousand bathers are frolicking in the water at one time.

Few Michigan resorts have more life than South Haven, with its sailing, rowing, bathing, launch rides, concerts, dances, "hay rides", and drives inland and along the shore, as well as many other means of recreation and amusement.

## Grand Junction

**A**S THE Pere Marquette Railway main line point, Grand Junction, 131 miles from Chicago, commands the attention of tourists for the variety of amusements offered. This is the crossing of the South Haven branch of the Michigan Central Railroad. Several beautiful lakes are near Grand Junction, among them Silver, Saddle, Osterhout, Lester and Clear Lakes. Cottage resorts are

found at most of these lakes, or board may be obtained at farmhouses.

## Bangor and Vicinity

**S**ITUATED between Hartford and Grand Junction are Bangor and Breedsville, likewise important tourist communities. Immense quantities of peaches, pears, berries, muskmelons and watermelons are shipped from the two points each year. In fact that part of Michigan between New Buffalo and Grand Rapids is practically a continuous fruit farm.

Pullman is 136 miles from Chicago. Those visiting it will find excellent black bass fishing in Upper and Lower Scott lakes, which are near the station. There are hotels and farmhouses to care for visitors.

Four miles farther north is Pearle, the stopping place for the resorts at Round and Crooked lakes. Black bass and pickerel of large size are plentiful. Accommodations can be found in cottages and farmhouses.

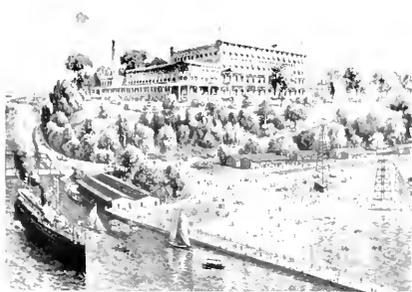

## Fennville and New Richmond

**F**RUIT and Fennville are synonyms in Michigan, since this station is the principal shipping point for the Michigan Fruit Belt. Over a thousand carloads of peaches, plums, grapes, apples and pears are shipped out each year. The tourist may know what to expect here. Fennville is also noted for its beautiful homes, which reflect the prosperity of the community.

New Richmond, a small village on the Kalamazoo river, is 148 miles from Chicago. Fishing in this section is good. One of many pleasant diversions offered is a boat ride down the river to Saugatuck and Douglas.

Idlewild, White Lake

Hotel Whitecomb, St. Joseph

## Saugatuck and Douglas

**P**ICTURESQUE hills, forest-covered, almost completely enfold the cities of Saugatuck and Douglas, which are situated on opposite sides of the Kalamazoo River, near its point of discharge into Lake Michigan. Here the river expansion forms almost a still lake and one of the distinctive delights of the residents and tourists is to drift idly in a boat out to Lake Michigan. As the crow flies, it is but a mile away, but following the sinuous course of the river stretches the journey to nearly four miles. The hills tower on either side, while snowy water lilies decorate the river's edge and exhale their delicate perfume. It is an experience—this drifting down the stream—that causes one to forget the cares and vicissitudes of a humdrum existence.

There are several good hotels and cottage resorts, as well as cottage communities, on the Lake Michigan shore. An immense new pavilion in Saugatuck, with music by a Chicago orchestra, provides recreation for those who are fond of dancing.

The Chicago School of Physical Education will hold sessions at Saugatuck in June, August and September. In addition, a summer camp for adults who desire instruction, and for young people will be maintained. Write Mrs. Laura Orvis Parson, President, 430-432 South Wabash Avenue, Chicago, Ill., for booklet. Camp Gray is another Saugatuck entertainment enterprise.

## Holland, Macatawa Park-Ottawa Beach

**S**UGGESTING its best Dutch patrial ideals, and yet thoroughly permeated with the spirit and energy of American progressiveness is Holland—gateway to Macatawa Park-Ottawa Beach, and other resorts situated on Black Lake. Holland is 150 miles distant from Chicago. It lies at the upper end of Black Lake, the shores of which for six miles

form an almost continuous chain of summer cottages and tourist resorts.

Nature-lovers will find a veritable fairyland of their dreams in Macatawa Park, with its thickly wooded hills covered with flowers; its winding, concrete paths and drives in the great forest and the adjoining public parks, and its varied bird life which adds infinite interest. Macatawa Park is a family resort which is open all the year. It is owned and operated by the cottagers, who have four hotels and 350 other buildings. The district is lighted with electricity. Twenty stores supply the wants of cottagers and tourists. An inclined railway performs service to the pavilion on Lookout Mountain. The regular amusements include nightly hops, tennis and other games, fishing, bathing and boating. There is one mile of bathing beach on the Lake Michigan side of Macatawa Park, the beach being of clear white sand.

For information, reservations or booklets, etc., write Mr. S. A. Miller, Manager, Macatawa Park.

Ottawa Beach, which is the site of Hotel Ottawa is immediately opposite Macatawa Park, on the north side of Macatawa Bay. Hotel Ottawa has accommodations for upwards of 600 guests and it is at once one of the largest and best summer resort hotels on the American continent. It is a modern three-story structure. The dining-room and a number of guest rooms are located on the first floor. Over one hundred of the suites are with baths. The dining-room has a capacity of over 800 and the service maintained is of a metropolitan standard.

Over \$30,000 were laid out in 1915 in various improvements, chief of which were the enlarging of the dining-room and the ball-room, the installation of a grill-room, and the addition of a sun parlor with a fireplace, on the office floor, which proves a popular gathering place on the few stormy days that may

Sylvan Beach

Cottage at White Lake, near Whitehall

A Modern Explorer

obtrude in the otherwise usually cheerful summer season. Hotel Ottawa is under new management.

Recreation at Ottawa Beach in its many forms is not neglected here.

Pere Marquette passengers destined to Black Lake resorts must transfer at Holland to the Michigan Railway. Baggage checks should be taken to the interurban station at Holland, where they will be exchanged for checks to destination.

## Resorts of Grand Haven

**C**ATHERING to the summer tourists and manufacturing are combined in the civic ambitions of Grand Haven—one of the important resort points on the Pere Marquette Railway—situated at the mouth of the Grand River. It is a city of 7,000 inhabitants and the seat of Ottawa County. Grand Haven has long been noted for its delicious smoked whitefish.

The resorts surrounding Grand Haven are Highland Park, on Lake Michigan, which has a fine hotel, 150 cottages, a dancing pavilion, and one of the finest bathing beaches on the Great Lakes.

"Spring Lake, where Nature Smiles for Seven Miles," is a trim little expanse of pure crystal water, which offers good fishing, bathing and boating. Other attractions include a dancing pavilion, a motor-boat club and a golf course.

Grand River, the largest water-course in Michigan, is noted for its bass and pickerel fishing. A street car

Alcott Hall, School for Girls, Grand Haven

Park at St. Joseph

line and a good county road system connect all the points of interest mentioned above. Write the Chamber of Commerce, Grand Haven, Mich., for booklet

Akeley Hall, a school for girls and young women, is situated on the Lake Michigan shore. Write Miss Mary Helen Yerkes, resident principal, for booklet.

The Spring Lake Yacht Club holds annual regattas, which attract yachtsmen from the four points of the compass

## Muskegon

**P**ROSPEROUS, in all the word implies, is the largest city on the east shore of Lake Michigan—Muskegon. To the north lies Muskegon Lake, which is perhaps the safest harbor of the Great Lakes system. On the north shore of this lake is the park-like suburban city of North Muskegon. Beautiful Lake Harbor is only a short distance from the southern limits of Muskegon Heights, the manufacturing suburb of Muskegon. The summer parks of Lake Michigan and Lake Mona Park are reached by street car lines. Boats connect the Lake Harbor Hotel and other points on the lake with the street car lines and the Pere Marquette trains.

North of Muskegon Lake is Bear Lake, which has several miles of wooded banks. Near-by are also Wolf and Twin Lakes and other pretty bodies of water. The lakes and streams are all well stocked with all varieties of game fish. Varied attractions afford opportunity alike for those who want the dis-

Lake Michigan Beach and Lighthouse, Portage Point

Portage Point Inn, Portage Point

Van Etten Lake Lodge, Northeastern Michigan

Michellinda Pines from Golf Links

Lake Harbor

tractions of hotel life, or for those who prefer to "rough it" in tent or cabin. Thousands visit Muskegon each year.

The splendid gifts of the late Charles H. Hackley, which include among others a public library, an art gallery, a public park embellished with statues to the nation's heroes, make for the renown of the city. The Country Club, with its golf course and its spacious grounds and the Yacht Club add to the attractiveness of Muskegon life. Write the Muskegon Chamber of Commerce's Resort Bureau for booklet.

### Lake Harbor

**V**ARIED are the forms of entertainment the visitor finds at Lake Harbor Hotel, for these include fishing, boating, yachting, tennis, golf on an eighteen-hole course, bathing in the surf, etc. Lake Harbor is at once one of the largest and also one of the most attractive watering places in Michigan. This resort is situated five miles south of Muskegon, on a stretch of land between Lake Harbor and Lake Michigan. All trains of the Pere Marquette Railway stop to leave or to pick up passengers for or from this point. A steam ferry boat to the Lake Harbor Hotel, six miles distant, meets all trains.

This inviting summer hotel is efficiently managed by Mr. Edward R. Swett who also operates the Occidental Hotel at Muskegon. Lake Harbor, as a resort, is popular with summer tourists from Chicago and the Southern States. Bellevue Hotel is also an inviting place to while away the holidays.

### Fremont

**F**REMONT, named for the great "Pathfinder," John C. Fremont, is situated on the Big Rapids division of the Pere Marquette. Fremont and Pickerel lakes are two inland bodies of water near by. Hotel St. Byno, which is located on the

shore of the former, is about a mile from town, while Basseta Resort is found at Pickerel Lake, about six miles distant. Black bass, pickerel and other members of the finny tribe, prized by anglers, abound in the lakes and streams.

### Newaygo

**R**UGGED, fascinating scenery is one of the distinctions of the Muskegon River, in the vicinity of Newaygo, on the Petoskey division of the Pere Marquette Railway. Newaygo has a population of 1,500 inhabitants. The river, which gives the village the advantage of a splendid water power, abounds in fish.

Two and a half miles east of Newaygo lies the Hess Lake summer resort. This resort is still growing steadily. Its shores are lined with cottages, and good hotel accommodations are available. There is an abundance of perch and bass fishing here.

The Newaygo Lakes resort (Drew Station) lies three miles northwest of Newaygo. There are sixty cottages in this community, chiefly Chicago people. This resort is on a chain of four lakes, which are navigable by launch. A low, uneven shore line, contrasting with the steep hills, gives an unusual effect to the scenery. Other resorts are found near White Cloud.

### Whitehall and Montague

**T**HOSE farmhouses and summer resorts which are situated in the White Lake section provide excellent accommodations, and this fact has come to be well known. This district is reached by way of Whitehall station, which is fourteen miles north of Muskegon, on the Pentwater branch of the

Public Bathing Pavilion, Pentwater

Lake Harbor Hotel

Pere Marquette Railway White Lake is an expansion of the White River. It is six miles long and about a mile wide. Sylvan Beach, which is a strip of ground which separates Lake Michigan from White Lake, is perhaps the favorite resort of this section. Over fifty cottages and a hotel are comprised in this community. At Whitehall is the Hotel Mears, where fifty guests can find accommodation.

To the south of Sylvan Beach is Michillinda, a cottage resort located on Lake Michigan. The Michillinda Pines and the Fernwood are two splendid hotels which cater to the summer tourist trade.

Three miles south of Whitehall is Duck Lake Resort, on the shore of Duck Lake.

North of Whitehall, and on the north shore of White Lake, is the sister village of Montague. The chief hotels and summer resorts are: The Franklin House, Sylvan Beach Hotel, Murray's Inn, The Catalpas and The Fernwood. Other resorts nearby are Johnson's and Idlewild, also located on White Lake.

Eleven miles north of Whitehall, and half a mile east of Lake Michigan, is Stony Lake, whose waters are deep and always cold. This lake is reached by the Pere Marquette to Shelby, and a drive of six miles west to the lake.

## Pentwater

**P**INE-CLAD hills surround Pentwater, a delightful holiday point on Lake Michigan. Pentwater Lake is a near-by inland expanse of blue waters.

This latter body of water, which is about two miles long, and connected with Lake Michigan by a broad channel, has a heavily wooded shore, where innumerable sites for summer homes and camps are to be found.

Pentwater is a progressive city of 1,500 people, situated in Oceana County, one of the leading farming and fruit counties in the United States. There is an excellent harbor, Government piers, a lighthouse and life-saving station, all of which add to the picturesque-ness of the place. Near by are numerous cottage resorts, of which Oceana, Pentwater Beach, Campbell and Garrison Park resorts are the principal ones. Pentwater is the terminus of the Allegan-Pentwater branch of the Pere Marquette Railway.

The civic spirit of Pentwater is exemplified by the Boosters' Club, of which V. P. Weidensee is corresponding secretary. Communications directed to him for literature, etc., will receive prompt attention.

Pere Marquette steamer No. 7 will make trips between Pentwater and Ludington and Manistec twice daily.

Bass Lake Park is situated five miles from Pentwater. This resort community, situated on Bass Lake, has two good hotels which give the best of service at moderate prices.

## St. Joseph Mineral Baths

**W**ITH a \$65 000 structure, the Hotel Whitcomb Mineral Baths, which adjoin the hotel itself, are situated on an eminence which commands a view of Lake Michigan. Absolutely sanitary conditions prevail throughout. Special structural glass has been used for the floors, walls and partitions. The system of ventilation is the most perfect known. There are two distinct departments, one for men and one for women.

Hotel Whitcomb has a capacity of accommodating 400 guests. Both institutions are open the year round. Write Mr. E. S. Richardson, Hotel Whitcomb, St. Joseph, Mich. for booklet.

Hotel Ottawa at Ottawa Beach

Hotel Macatawa, Macatawa Park

## Benton Harbor Baths

**I**N the heart of the city of Benton Harbor are the Premier Mineral Baths and hotel. The waters are widely known for the curative powers in cases of rheumatism, etc. Write R. T. Laughery, Manager.

Hotel Saltzman has also a well-equipped bath-house. The baths are under the direction of Dr. W. E. Saltzman, and patients have the advantage of the care of a specialist in rheumatic and nervous diseases.

Eastman Park Springs offer hotel accommodations, and its new mud baths in addition to the usual mineral baths and the waters from the curative springs in the forty-acre park, owned by the Eastman Springs Company.

## Detroit Mineral Baths

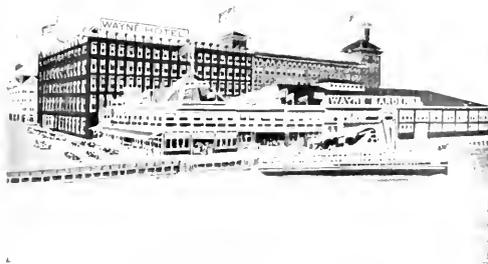

**M**INERAL water of wonderful curative properties was discovered about four years ago on the property owned by J. R. Hayes, adjoining the Wayne Hotel, Detroit, Mich. The water is of a sulpho-saline nature and its efficacy is demonstrated in cases of rheumatism, blood and skin diseases, nervous troubles, dyspepsia, gout, neuritis, etc.

Located right on the river front, the Wayne Hotel and Mineral Baths are especially attractive to people who wish to visit Detroit solely for pleasure and recreation or to regain their health through hydrotherapeutic measures.

Mr. J. R. Hayes, proprietor, will gladly mail you an illustrated booklet on request.

A Touch of the Colonial at Black Lake

# RÉSUMÉ OF MICHIGAN FISHING AND HUNTING LAWS

A Likely Stream

## CAMPING IN MICHIGAN

Baldwin is the mecca of sportsmen. Within easy access are no less than twenty-seven small lakes and trout streams, innumerable camping spots and one of the most delightful waterways that offer attractions for the camper—the Pere Marquette River. Baldwin annually entertains a number of Fishing Clubs. It is one of the highest spots in western Michigan. The Baldwin Commercial Club, an organization of business men of the community, provides free camping sites on any of the lakes and arranges accommodations for visitors. Write Mr. H. W. Davis, Secretary, Baldwin, Mich.

Pere Marquette River, near Baldwin

Telling About the Big One He Caught

**FISH**  
**Non-Residents of State Must Have License**  
 Non-resident license fee, \$3 00, to take all kinds of fish, including brook trout.

"Brad" on the Pere Marquette

## CANOE TRIPS IN MICHIGAN

One glance at a topographical map of the State of Michigan reveals innumerable chains of lakes and streams that offer short, safe, enjoyable canoe trips. For the more ambitious ones none perhaps can surpass in the variety of scenery and experiences that are offered on such a trip as that which is known as the Intermediate Lakes.

Recently a number of places in northern Michigan have been bidding for the summer tourist who prefers life "under canvas" as an outing, consequently free camp sites are provided. Write Pere Marquette Passenger Department representatives for particulars.

Muskellunge Caught near Ellsworth

## GAME AND FUR-BEARING ANIMALS Continued Unlawful to Hunt or Trap Without License

KIND OF ANIMAL	OPEN SEASON	NUMBER AND POSSESSION	REGULATIONS

MARQUETTE

# MICHIGAN SUMMER RESORTS

*The Apple Blossom Land*

“ HER mighty lakes, like oceans  
of liquid silver; her mountains  
with their bright aerial tints;  
her valleys teeming with wild fertility;  
her tremendous cataracts thundering  
in their solitudes; her boundless plains,  
waving with spontaneous verdure; her  
broad deep rivers, rolling in solemn  
silence to the ocean; her trackless  
forests, where vegetation puts forth  
all its magnificence; her skies, kind-  
ling with the magic of summer clouds  
and glorious sunshine;—no, never  
need an American look beyond his  
country for the sublime and beautiful  
in natural scenery.”

—*Washington Irving*—  
“*The Sketch Book*”
